Hello Ariel and Christel,

Hope all is well. Please excuse my delay on answering. I have been on the road the last couple of days. I am available early next week for a call. Please let me know what day and time works for you. Attached please find the latest tear sheet for our fund Broad Reach for your review. Look forward to our conversation.

JP,

Thank you for the introduction. Look forward to talking to you as well.

Best Regards,

George B. Medina

Hi Georges,

Great discussion just now! Too funny that Jason and I were just speaking about Broad Reach Capital just minutes before our call! We really love this and want to learn more. Lets set-up a call with all of us and Brenda as well. Feel free to propose a few time/date options that work for you and my assistant Christel can help coordinate a time for us to connect.

If you prefer, you can click on the link below to confirm a call in a few seconds. It is a really cool system that will automatically show you my open times in your local time zone and saves a lot of back and forth... just do not forget to hit the "Confirm" button at the end! <https://www.timetrade.com/book/NDJLQ>

Please email us any materials we can review in advance of the call. Look forward to speaking together.

Warm regards,
Ariel

BROAD REACH CAPITAL, LP

THE FUND

Broad Reach Capital, LP implements an investing strategy with the goal of achieving superior risk-adjusted returns over a broad range of market environments. The Fund utilizes a vertically-integrated platform and efficient execution platform designed to optimize a diversified combination of strategies. Our Fund maintains a high level of liquidity with a rigor and focus on creating consistent positive returns. We have accomplished this through identifying and managing trading opportunities and trading strategies coupled with a robust risk framework. The current portfolio of strategies include Dividend Capture, VIX Convergence, Volatility Skew, S&P Premium Capture, Opportunistic and Intraday Trading.

RISK MANAGEMENT ANALYTICS

We believe that dramatically improving the risk-adjusted return of a portfolio requires a robust risk-management framework. This system must be flexible, adapting to different trading methodologies, execution styles, holding periods, underlying securities, and opportunity sizing. We accomplish this through tailoring a risk program for every strategy, which may include hedging with options, requiring first-loss capital, building custom loss reserves, as well as a technology framework with advanced stop-loss functionality.
